

Training Horses to be IPET Therapists

Develop techniques to comprehend the information encoded in therapist-horse-client interactions, and gain the necessary skills to train horses for IPET work.

A 4-hour workshop dedicated to the understanding and the training of horses for Interpersonal Equine Therapy® (IPET). This workshop focuses on working with individual or multiple horses. Therapist observation, communication, training technique, and intervention with the horse(s) are essential to effective work with IPET.
